"A Software Engineer with 2 years of industrial experience in one of the MNC's in the areas of Backend development, Infrastructure, Information Technology using multiple programming's and it's frameworks."

### Professional Experience :

#### Associate Professional Software Engineer

DXC Technology ( 2020 - 2022 )

- Streamlining of application Development.
- Extensive Documentation of legacy Code.
- Involved in Writing queries, stored procedure, Packages & Triggered in SQL.
- Communicated and coordinated with the project manager and coworkers to resolve 10+ build breaks a month.
- Develop and maintain 'Automation' and automation test harnesses.
- Worked as L3 for Production Support.

#### Tech Stack :

Backend Development  
InfraStructure  
Test Automation

### Professional Qualifications :

#### Bachelor of Engineering in Computer Science

Sahyadri College of Engineering & Business Management Mangalore (2019)  
with 6.9 GPA

#### Diploma in Computer Science

S.D.M TI , ujire(2015)  
with 6.2 GPA

#### S.S.L.C

K.E.M.S venur (2010)  
with 70.88%

#### Relevant CourseWork :

Data Structure and Algorithms,  
Linux, Windows, HP-UX Operating System,  
Computer architecture.

### Experience :

- Involving in requirements gathering, analysis, design, and documentation of the application.
- Working on agile scrum methodology and involving in stand-up meetings to monitor the progress.
- Delivered, analysed and resolved technical issues, and participated in the continuous enhancement of established development process.
- Worked on Critical Application project over fixing bug and implementing change in new release.
- Database Developer Collaborated with a team to manage database and handled client data in HPE E-Commerce sector.
- Configuring the spring integration XML to route request to respective databases.
- Develop tools to automate the deployment, administration, and monitoring of large-scale AWS Linux and HP-UX environment.
- Provided infrastructure support and maintainances.
- Automating the cloud deployments using Python and AWS cloud formation templates.
- Actively participated in and ran weekly meetings to facilitate the discussion of strategies, solutions and improvements

## Skills:

- Team Leadership
- Collaboration
- Documentation
- Analytical
- Research
- Presentation Skills
- Python
- Java
- Adv.Java
- Spring Framework
- Machine Learning
- SQL
- Dbeaver
- PostMan
- Apache Tomcat
- AWS-Basics
- Jeera
- Git/GitHub
- Linux, Unix, Windows.
- WebDevelopment

## Hands-On Experience:

software Analysis, Development in python, Java, J2EE, Spring Boot, JDBC, webTechnologies, Good knowledge of complete Software Development life cycle (SDLC) starting from Requirement analysis, Design, Development, Coding, Testing and Implementation.

Worked Hands over : Rest API, SOAP, ELK, Tomcat6, JQuery, Spring Boot 2.4.3, Postman, Dbeaver, Nimble, GreenLake, Mockito, Pip 2 & 3, Junit, CI/CD, npm, npx, Slack.

## Certification:

- Certified by Skillsoft collaborated with HPE-DXC as " Full-Stack Developer "
- Certified by Jspiders Institute Bangalore over " Core Java, Web Technologies, Python, J2EE,SQL, Frameworks " .
- Certified by " Google Developer Group " over " Bootcamp-Python and Deep Learning ".
- Certified by " Microsoft Learn Student Ambassador " over " Backend Web Development ".

## Award :

HPE-DXC champ Award for " Top Performer " of the year 2021-22.

## Personal Details:

Name : Abdul Nasir V.  
Gender : Male.  
Date of Birth : 21-05-1995.  
Nationality : Indian.  
Marital Status : Single.  
Languages Known: English, Hindi, Kannada, Malayalam, Tamil,etc...

Place: MANGLORE  
Date:

ABDUL NASIR V

**Internship Details :**

Company Name : Accolade Tech Solution.  
Duration Period : 9th / July / 2018 to 9th / Aug / 2018.  
Project Details : Android with Java worked on Project “ Taxi – Sharing “.

**Project Details :**

**Academic :**

Title : "Detection of Lack of Melanin in skin"  
Team Size : 4  
Role Played : Design and calculations.  
Environment : Manual.  
Abstract : The main objective of the project is to classify the melanoma images as benign or malignant. The proposed model mainly aims at detecting the skin diseases. The test images are given as  
The input : This helps to save time and increase the efficiency of the work where it is used.  
Benefits : It is used in the medical field for the detection of skin disease.

**Personal Projects :**

Title : " Real-Estate-Price-Prediction"  
Technology: Machine Learning using Python  
Desription : People are terribly careful once they wish to shop for a replacement assets with market ways and their budgets. the target of this project is to predict the costs for Real-Estate holders supported their aspirations and monetary provisions. By analyzing totally different parameters. project contains what and how the Real Estate pricing model works with the help of machine learning and which dataset is used in our proposed model.
